**Subject:** Incorporation of IO Comments on SNUR FRN  
**Attachments:** Asbestos SNUR Draft Final Rule 3.15.19.docx

**Importance:** High

In the interest of time I'm sending forward the FRN with my responses/edits to the IO comments prior to routing to the OCSPP IO. Steve, I flagged a couple things for you since the IO's comments led to a few edits that need your review.

I will now begin working on the other docs, the comments of which are minimal so should be relatively quick. Thanks for taking a look at this. Unfortunately, sharepoint is not working for me so sending this as an attachment. The IO comments were not extensive on any of the docs, the FRN having the most comments.

-Robert
